Forecast for Tuesday 08 Jun 2021

Weather: Some clear spells overnight but cloudy at times too with some light and patchy rain and drizzle by dawn, more so for western ranges and Arran. Light rain persisting through the morning but a drier afternoon. Some sunny spells for more eastern ranges and generally dry here.

Chance of cloud free mountain/hill tops above 800m: 50% perhaps some periods of low cloud shrouding the tops in the west in the morning.

Visibility: Cloud bases in the west may be down to 400m in the morning with light rain and drizzle, this is most likely in the west around Ardnamurchan, Glenfinnan and Lochaber, cloud will lift and break in the afternoon. Better conditions will be found in the Trossachs and around Crianlarich. Visibility will generally be good below the cloud bases however in heavier outbreaks of rain it will fall poor temporarily.

Met Office Aberdeen Meteorologist's View
Breezy at times on the munro tops.

Forecast for Wednesday 09 Jun 2021
Weather: Mainly dry overnight but cloudy and some light rain from dawn. Rain will mainly be quite light and patchy but there may be some heavy outbreaks around the middle of the day. Rain clearing east during the evening but some patchy light rain may linger into the evening.

Maximum wind: Southwesterly 20-25 mph with gusts around 30-35mph.

Chance of cloud free mountain/hill tops above 800m: 60%, broken low cloud is expected especially in the west in the morning.

Visibility: Low cloud will be extensive in the far west initially on Wednesday with cloud bases around 4-500m, cloud will lift during the morning and break with better visibility on the tops later in the day. Below the cloud visibility will be good falling moderate in outbreaks of rain.

Temperature: **Glens:** Plus 9 rising to 16 Celsius.
At 800m: Around plus 9 Celsius.
Freezing level: Above the summits.
